Diệp Nguyễn Thiên Trường

Frontend Developer

(+84) 837723372 thientruongdn51@gmail.com https://thientruong-portfolio.vercel.app Ho Chi Minh, Viet Nam

OBJECTIVE

As a Software Engineer that has an adaptability, decisive and high emotional quotient, I have a desire and aptitude for learning new knowledge from everyday problems, complex issues and skilled developers. I am looking for an opportunity to apply my skills in designing and developing outstanding User Interfaces for Website Application, which enhances my expertise in a professional work environment.

EDUCATION

FPT University Sep 2021 - Dec 2025

Bachelor of Software Engineering, Major: Software Engineering

• GPA: 3.17/4.0

COMPETENCIES

• **Technical skills:**	o Programming languages: TypeScript, JavaScript. o Frameworks & Libraries: React, NextJS, NestJS, React Native, Expo. o Tools: Figma, Notion, Jira. o Others: Git, Github, Github Copilot, Azure, MySQL, MongoDB.
• **Hard skills**	Vietnamese: Native, English: Upper-Intermediate (B2 – CEFR), Japanese (Basic).
• **Soft skills:**	Work in groups, responsibility, social network, leadership, problem-solving, critical thinking.

WORK EXPERIENCE

Amazing Tech Aug 2024 - Dec 2024

Front-end Developer Intern

• Developed a website utilizing Real-Time Streaming Protocol (RTSP) and Real-Time Messaging Protocol (RTMP) with the help of Socket.IO for seamless real-time communication and streaming.
• Created visually appealing and user-friendly interfaces using Ant Design and Material UI.
• Demonstrated strong skills in communication, teamwork, and problem-solving.

PROJECTS

Apartment Storage Management System (ASMS) Sep 2025 - Dec 2025

Lead Frontend Developer

Build a **3D-simulated platform for apartment storage rental and management**
Team size: 4 members
Position: Lead Frontend Developer
Responsibilities:

- Led frontend development and designed the overall **UI/UX architecture**.
- Developed responsive and modular **React + TypeScript UI components**.
- Integrated **REST APIs and cloud services** into the frontend system.
- Implemented **3D storage visualization and booking workflow interfaces**.
- Collaborated with backend developers to ensure **data consistency and smooth system integration**.

Technology in use:
React, React Native, TypeScript, C#, .NET, Azure, SQL Server, Cloudinary, PayOS, Google Maps API, MailKit, Vercel

Website: https://www.asms.website

Nekolingo Language Learning Platform Jun 2025 - Aug 2025

Lead Backend Developer

Build a **Duolingo-like learning platform integrating AI and gamification features**
Team size: 5 members
Position: Lead Backend Developer
Responsibilities:

- Designed **backend architecture and database schema** using NestJS and MongoDB.
- Implemented core **business logic for lesson progression, gamification, and user tracking**.
- Integrated **AI APIs for generating personalized learning content**.
- Built **payment system integration** and optimized backend performance.
- Collaborated with frontend team to maintain **cross-platform synchronization**.

Technology in use:
NestJS, MongoDB, Docker, TypeScript, Cloudinary, Cloudflare, VNPay, Gemini API, React, React Native

SmartBus Intelligent Transportation Platform Mar 2025 - May 2025

Lead Frontend Developer

Build a **real-time public transportation tracking and route planning system**
Team size: 3 members
Position: Lead Frontend Developer
Responsibilities:

- Designed and developed the **entire frontend interface** for web and mobile.
- Integrated **Google Maps API for route visualization and navigation**.
- Implemented **real-time bus tracking and route planning UI**.
- Developed digital ticket purchase interface integrated with **PayOS payment gateway**.
- Optimized user experience for **transportation search and route discovery**.

Technology in use:
React, React Native, JavaScript, C#, .NET, Azure, Cloudinary, Vercel, PayOS, Google Maps API, Expo
